JULY 2023 / PRESENT

STUDENT INTERN at STRIVERS INFOBYTE

📍 Lucknow (Remote)

- ☐ I have started by learning the fundamental web development languages, HTML for structuring content, CSS for styling and layout, and JavaScript for adding interactivity and functionality to websites.
- ☐ I worked on creating responsive web pages that adapt and look good on different devices, including desktops, tablets, and smartphones.
- ☐ I have used JavaScript to add interactive elements to websites, such as form validation, dynamic content updates, image sliders, and responsive navigation menus.

PROJECTS

PERSONAL PORTFOLIO

The completion of my personal portfolio website project using front-end technologies was a rewarding and enriching experience. By showcasing my accomplishments, skills, and projects in an elegant and interactive manner.

E-COMMERCE WEB PAGE

The completion of the E-commerce website project using front-end technologies marks a significant achievement in my journey as a web developer. Building a fully functional online platform with a user-friendly interface, dynamic shopping cart, and responsive design has equipped me with valuable skills and experiences.

ONLINE QUIZ APP

The project showcased my ability to create a user-friendly interface, incorporate various question types, and implement features like timers, scoring systems, and interactive feedback. By completing this project.
